

**GASOLINE ON
CLOTHES IGNITES
BURNS BOY**

Kenneth Sayers, 13 year old son of Mr. and Mrs. Earl Sayers of 167th street, figured in an unusual accident last Saturday morning.

While helping his grandfather, Frank Sayers, with the plowing, driving the tractor, he came into the farm yard to refuel it. In so doing the funnel tipped and gasoline spilt on his clothing. He went into the grandparents' kitchen, and brushing by the stove the heat from it ignited the gasoline on his clothing which quickly spread all over his body, and also set fire to kindling in a box behind the stove.

Because it was a cold day, he had on several layers of clothing.

His grandmother threw a pail of water on him and at the same time tore his flaming clothes off. Out of what could have been a fatal accident, Kenneth sustained second degree burns on his left arm, nose, mouth and his hair was also burned. He was taken to the office of Dr. E. G. McMahon in Mokena for treatment.

Kenneth, who is a student in the eighth grade at the Doctor school, on 159th street, was able to return to school Tuesday. His burns are healing nicely.

The fire in the kindling box was also extinguished in short order with no damage.

**New Bowling Alleys
Busy After Opening**

A popular rendezvous for bowlers is the A. C. Bauch bowling alleys in Frankfort. Opened but a short time ago, those engaged in this popular indoor sport have kept those working in the alleys wiping the perspiration from their brows.

For instance, since the opening, 3,025 lines have been bowled, which consists of a maximum of 22 balls, or a minimum of 13 balls rolled to the line. If you're adept at figures you might figure out how far the balls travelled, from Frankfort to where, and the work on the part of the caretaker to keep these balls all polished and ready for the next day's play.

The bowling alleys "have eight leagues bowling and from Frankfort alone there are 120 men engaged in league bowling, many of them never having bowled before. The restaurant is nearing completion and when it is finished the alleys expect to hold a grand opening of the newest recreation center around these parts.

**Farm Election To Be
Held Nov. 14-25**

The annual election of farmer Production and Marketing Administration committees (formerly AAA) to administer the 1950 farm program in Will county, will be held during the period November 14 to November 25, Mr. Conrad Borms, chairman of the present county P. M. A. committee, announced today.

Eligible voters in each community will elect three regular community committees and two alternate members in addition to a delegate and an alternate delegate to the county convention, which will convene November 29 for the purpose of selecting a 1950 county committee.

These committees are responsible for the local administration of such programs as agricultural conservation, loans and purchase agreements, allotments and others—all of which affect each and every farmer.

According to Mr. Borms, any producer who is taking part in the agricultural conservation program or is eligible for a loan or other price support, or has entered into a Federal Crop Insurance contract, is eligible to cast a vote. "This," he said, "includes practically all farm producers, owners and tenants alike. He emphasized that every effort will be made on the part of the county committee to properly inform farmers of the election and to secure a record-breaking vote.

A member or representative of the county committee will be present at each election meeting to discuss current program operations.

In emphasizing the importance of taking part in the election, Mr. Borms advised of the need for maintaining a strong farm program. He pointed to the committee system as a unique and important feature of a good program. "It is through this system," he said, "that farmers have an opportunity not only to influence program provisions but also to actually administer such programs on a local basis. A large and intelligent vote is the best means of preserving and strengthening this system. It is highly essential that the best men in each community are elected to fill these responsible positions."

**Two Boys Disappear
Friday; Located Sun.**

Two Tinley boys came to Mokena last Friday night for the purpose of dating two teen-age Mokena damsels. The boys were Jack Tolian and Fred Maxwell, both 16.

Sunday morning came and one of the boys' mothers was trying to find some information as to where the boys had disappeared along with Tolian's family car. At noon Sunday the only information obtainable was that the boys were seen with a couple of sailors and their intention was to "join the navy."

However, late Sunday the boys were located at Rochester, Minn., with a blown-out head gasket in the car. And the mystery of the lost boys was solved.

We Thank You

Because we cannot meet each one personally to tell you how much we appreciated the assistance given us at the time of the fire at our farm, may we take this means, in hopes that our thanks will reach every one. We are most grateful to both the New Lenox and Mokena Fire departments; to the men who stayed Saturday evening; to those who worked all day Sunday so that our dairy cattle might have shelter and a milking machine be installed, and for the many other acts of kindness. We surely have wonderful friends and neighbors and we do thank you all.

THE BROWNS,
Fred, Alma and Stanley

Reminder To All—

Friday, November 11 will be Armistice Day. On this day the entire American public should pay their respects to the four million men—the flower of our country—who so gallantly protected our American way of life, in World War one.

The war ended on the eleventh hour of the eleventh day of the eleventh month in 1918, with a victory by our fighting men. We are remembering today, the heartaches, their's and our's, and now may the burden of our prayers be—Peace.

**Turkey Shortage Seen
As Dogs Get "Bird"**

As "turkey day" approaches Green Garden seems to be suffering a shortage of turkeys. A few weeks ago an announcement was made that turkeys in that section were destroyed in the amount of around 50.

November 4 came word from Green Garden that 85 more turkeys were destroyed by a killer or killers roaming at large. The killers are evidently dogs running in packs. But that doesn't help the turkey situation.

As there are still over 3,000 birds in that section, F-men are being organized with the help of Will County sheriff's office to stop this wanton destroying the main course of the Thanksgiving feast.

Well the secret is out now, about who is who in the PTA minstrel held last Friday and Saturday, and not much need to say anything about it, because by the crowded house both evenings, it seemed that almost everybody in Mokena attended.

Each one did his or her part exceptionally well. Mr. Lyman Teague was the interactor. And now we know that Mr. Africa, the restaurant man, was Paul Cowling, president of the PTA. Mrs. George Bills, Miss Bowangles; George Bills, Mr. Catfish; Mrs. Winton Hamilton, Miss Pansy; Gerritt Swart, Mr. Friday; Henry Clark, E. Pluribus; Mrs. J. L. Is Size a Sin?

The government has instituted an antitrust suit against a very large chain store system, which serves many states. If the suit is successful, this chain will, among other things, be disbanded into seven independent companies.

In a thoughtful editorial on the suit, the San Francisco Chronicle said: "We have no quarrel with specific actions directed against specific violations of law. . . . Our quarrel is with an increasing tendency of Government to attack institutions simply and wholly because they are big and powerful. Size has become a sin in the eyes of Government. The question for the American people to decide is whether size, alone, works to their detriment or their interest."

"The intent of the Sherman Antitrust Act was to make the Nation safe for competition, and to guard against monopolies that got into the saddle and then bled the public by imposing high prices. It was not intended as an instrument for the throttling of legitimate free enterprise and the demolition of mass production—cornerstone of the American living standard and principal bulwark of America's strength."

No retailer, no matter how large he may be, has or can have anything remotely resembling a monopoly. Thousands of competing stores, including both independents and chains, are constantly trying to attract his trade through their doors. Success in retailing can be achieved only by selling at reasonable prices, by offering more attractive stocks, by giving better service, or by doing other things the consumer likes. The largest and wealthiest chain would go broke in a hurry if it stopped pleasing the public. The customers would go elsewhere in droves. We have the best, most efficient and most economical mass-distribution system in the world. Competition keeps it that way.

If the government is really interested in destroying dangerous monopolies, it should take a searching look at some of the big, industry-wide labor unions. These unions can stop production of vital commodities, such as coal, any time they feel like it. The public has no recourse, and neither has management. The union heads are the bosses, and what they say goes. That is nationwide monopoly. It represents abuse of power with a vengeance. These unions are air-tight "trusts" that menace the security and welfare of all the people.

TINLEY PARK

The class plans to go caroling at Christmas time.

The group went to the home of Mr. and Mrs. Francis Glahn where

CONSTRUCTING NEW MICROSCOPE—Mr. Claude Magnan, left, stands beside the microscope he is building which he thinks will magnify objects one million times. It will utilize the spray-off of atomic particles known as protons, and will therefore differ from the electronic microscope now in use. HOLDS RUGS—Safety first in a bottle, is what you might call the liquid this young lady, Jean Hogan of New York, is painting onto the back of a rug. It is Rugback, a development of one of the major rubber industries. After drying for an hour, it forms a tough, flexible, transparent rubber film that keeps the rug from slipping without sticking it to the floor. It also seals in the loops of hooked rugs and prevents rug curling. — National Patent Council.

Drivers' License Fee Now \$1.00

More than 15 per cent of persons applying for drivers' licenses are still unaware that the fee for an operator's license was increased from 50 cents to one dollar at the last session of the General Assembly, Secretary of State Edward J. Barrett has announced.

"Applications which arrive at our drivers' license division accompanied by a 50 cent fee cause inconvenience to the driver and added expense to the State," Barrett said, "because our only recourse is to return the application and fee to the applicant with a request for the

proper fee.
"This slows up the process of getting the license to the driver and involves the department in correspondence which costs needless time and money."

Rufe's Ramblings

By RUFÉ PICKETT

Some few years ago I was out in the wheat belt when a little boy wandered out into a field which was higher than a man's head. An alarm was sent out and when I arrived upon the scene I found the family and many of the neighbors calling to him and searching fruit-
lessly—each one looking where others had already been. When I observed their lack of system I suggested that everybody line up and take hold hands and walk straight across the field, being careful that no two of us pass him between us. On the third trip through, this quarter mile long human comb came across the little fellow—exhausted and sound asleep. I was highly com-
mended for making the suggestion, but I told them the idea was not original with me, that I learned it from the ladies down home. It was along about the time that the cotton mill first started over on New River. Among the new arrivals were some who were generally referred to as "bum weavers," who brought along a species of insects which were no respecter of persons and seemed to have the impression that two heads are better than one—and so on and on. The men and boys may have had other ideas in their heads but the remedy to which most of us resorted was not the thing to do in order to find the lost child. Who would want to clip the wheat in a field when he might be mangled by the machinery? It was the mental picture of the ladies in that crisis of way back yonder. I don't mean their liberal application of kerosene oil—I have reference to using human beings literally as teeth in a fine comb.

Clam Chowder Can Be Dynamite!

If Smiley Roberts is a friend of yours, like he is mine, and if you want to keep his friendship, like I do, don't ever let him hear you say that good clam chowder can be made without cream.

In New England, where Smiley comes from, friendships have been broken over tomatoes versus cream in clam chowder. Experts say that south of Boston the tomato reigns supreme, but north of Boston it's cream—or else!

From where I sit, whether it should have cream or tomatoes is simply a matter of taste. This is

plain to anyone who doesn't come from clam chowder country.

What a great world this would be if we could all see that most prejudices are matters of taste only. Some like hot coffee. Some like it iced. Some people like a temperate glass of beer. Others prefer ice-cold lemonade. My grand-mother used to say, "Prejudice that sees only what it pleases, cannot see very plain."

Love So Amazing

Lesson for November 13, 1949

LONG AGO riding in his slow chariot through the southern sands, a puzzled reader with Isaiah 53 in his hands asked the question other readers have asked ever since: Does the prophet speak of himself or of some other? The answer given by Philip (see Acts 8) has been the answer of the church ever since: This prophecy can be understood only in the light from Calvary's Cross. Philip did not say, and we need not insist, that the prophet had Jesus, and Jesus only, in mind when he wrote.

What we do say is that while these words might have described some one the prophet knew, might have described the whole nation of Israel, might even have described himself, still the words make but a poor picture of any one else, compared with the picture they make of Jesus.

The Scarlet Thread

ISAIAH 53 has been in the center of the church's thinking about Christ from the beginning. It may be said to run like a scarlet thread through the New Testament. It was in the back of the minds of Paul and John and Peter alike. This great prophecy sheds a light on what otherwise had been a black opaque blot—the death of Christ.

What would otherwise be simply a horrible tragedy, perhaps the greatest tragedy of history, the perfect case of complete injustice, the final evidence that there is no God, in the light of Isaiah 53 becomes a center of glory.

Instead of being ashamed of the cross on which Jesus died, the church sings, "In the cross of Christ I glory." . . . "Love so amazing, so divine, demands my soul, my life, my all."

We believe that Christ suffered not for his own but for others' sake. Suffering, not forced but willingly undergone, suffering not as mere pain but that others might be saved, suffering on behalf of others and for love of them—this is the key to the riddle of existence, this is the key to the heart of God.

Not Christ Alone

IF CHRIST'S MEN had refused to follow where he led, if all Christians had been willing to let him carry, alone, the burden of the world's sin and grief, there never would have been any Christianity—for there would never have been any Christians. Peter and James and the rest of the apostles would have refused to die for Jesus' sake. The noble army of martyrs would have been an ignoble army of cowards.

No missionary ever would have left home and comforts and country; no mother would have laid down her life for her children; the unselfish service of those who have cared for the sick and the orphaned would never have been done; indeed, had no one ever been willing to suffer for the benefit of others, one wonders whether the world could have even held together this long.

Christ died that the world might live, yes; but others also had to die to make his death avail. He died for Africa, that Africans might live; but Africans died till men like Livingstone and Schweitzer and many a less famous man and woman also went out and lived there in loneliness and died in pain.

Christ died for the little children of the poor, but until the Salvation Army and others like them went down into the slums and suffered there with and for them, those poor little people died without so much as dreaming that God might love them.

Christ died for all the lepers in the world; but until a Father Damien, and others no less Christ-like, went among the outcast lepers and became outcasts themselves for the love of Christ, those lepers died in the dark.

"Let Him Take
His Own Cross Daily"

YES, Isaiah 53 pictures the self-sacrifice of our Lord, above all. But any one who has any intention of being a true servant of God must be willing to find his own life-direction right here. The world does not need more pain; it does need those who will suffer pain to serve others in Christ's name.

TAX FACTS

By George E. Mahin, Executive Secretary
Taxpayers' Federation of Illinois

A "Football (Pool) Parable British Style" is featured in the current Tax Outlook published October 10 by Tax Foundation in New York.

And it came to pass that the Tax Collector decreed that all in the realm should appear before him to be taxed in accordance with the laws of the kingdom.

And when the first to come forth said he did earn \$5,000 by dice means, the Tax Collector did decree his tax to be \$1,047. And he passed on, strewn ashes on his State-provided wig.

Then appeared one who saith he did earn \$10,000 by his dealings in wines and provender. Him the Collector did assess \$3,238. Whereat he did weep and wail and gnash the teeth which the State did provide.

And again came another, clothed in fine raiment, who did acknowledge he had earned \$50,000. On which the Collector did decree an assessment of \$34,156.

And behold there appeared a scribe who saith his master charged him to make known his (the master's) earnings. And when it fell out that the master did earn \$100,000, the Collector did decree a levy of \$81,000.

Now near the close of the day there came a man of mean garb wearing a pair of State-provided glasses.

And when the Collector did enjoin him to make known his worth the man saith his only earnings, \$295-180, did come from a six pence "flutter" on a gaming—a football pool.

Whereon, the Collector did close his books.

"Go to," saith the Collector. "Thou knowest the laws of the land. Man must earn his life's estate and the State may take it from him in

taxes. But a man's winnings on a gaming are tax exempt." . . . And so it came to pass that the business of gaming (British Style) did flourish throughout the land while all other business did wither, so that it was necessary to carry coals to Newcastle and receive alms from other lands.

And while the Tax Collector (British Style) did marvel at the diminishing yields, comes word from Time of October 10 that another island, Puerto Rico, to encourage new business and put its people to work, has persuaded Archie of Duffy's Tavern to move there, free from American income tax and exempt from Puerto Rico income, property and excise taxes until 1950 on any movies or TV shows he produces there. Archie won't be lonely either, because Time says that 50 American companies have already moved to Puerto Rico and more are expected by boat and plane.

Simpson Enters Race for State Treasurer

James Simpson of Wadsworth, Lake County, today announced his candidacy for the Republican nomination for State Treasurer at the Illinois Primary election to be held Tuesday, April 11, 1950. Simpson, a former Congressman from the 10th Congressional District, and former member of the Republican State Central Committee, was unanimously endorsed by the Lake County G. O. P. organization at a meeting on October 18th.

"As the father of six children, the oldest 17, the youngest one year old, the future of our country means a lot to me. You will understand why I am interested in seeing to it that the coming generation is given the same opportunity for success that you and I, and our folks before us, have had."

Simpson operates his own farm at Wadsworth in the rich dairy district of Lake County. He is serving, and has since 1931, as a director of Marshall Field & Company, and maintains business offices in Chicago, but the greater part of his time is devoted to management of his farm property.

A veteran of service with the Marine Corps in the second World War, Simpson enlisted in 1942 and served three years, with twenty-two months of foreign service. On his return home from war service he became a leader in a campaign to secure jobs for returning veterans, and his organization, known as Industry for Veterans, was successful in securing commitments of thousands of jobs for his war buddies.

The Missionary society will hold its regular monthly meeting in the home of Mrs. Frank Parker, Thursday, Nov. 17 with Mrs. Clarence G. Rowley as assisting hostess. Please note the early date—the change being because of Thanksgiving day falling on the customary fourth Thursday. Reports of the bazaar and supper will be made that day. Mrs. Florence Homering will be hostess to the Good Luck Camp of Royal Neighbors Thursday afternoon, Nov. 17.

At the meeting of the Wayside Workers circle of King's Daughters in the Willard Rowley home last Thursday, reports of the recent state and county conventions were given by Mesdames William Roberts, Orville Rasmussen and Wilbur Francis. Plans were made for the Circle's Christmas party which will be held in Mrs. Francis' home on Dec. 1. Mrs. F. J. Paddock will be in charge of the program and Mrs. Fred Trask and Mrs. Roberts will plan the entertainment. Mrs. Harold Finley was appointed chairman of Indian work, which is a state project of the King's Daughters.

Mrs. Owen Storm entertained at a family dinner last Sunday evening in honor of Mrs. Bell Storm who was celebrating her birthday.

School Notes

Local schools were closed last Wednesday afternoon to allow the teachers to prepare for examination day on Thursday.

Hallowe'en parties were enjoyed in the schools here last Monday.

Hadley school building is being improved by siding shingles which add to its appearance and warmth. Since there is no immediate probability of these small schools being abandoned, and since Homer population is increasing, it seems wise to keep the buildings and equipment in as good repair as possible.

Mr. and Mrs. B. F. Ingersoll are recovering from an attack of influenza.

Mrs. Ames Conrad of Chicago was a guest in the George Burcham home on Wednesday.

Fred Petge had the misfortune to lose two fingers in a corn picker on his farm last week. He is now vacationing with relatives in Iowa.

A barn on the farm occupied by the Tony Sartori family, known as the Harrington place, was totally destroyed by fire early last Wednesday. Spontaneous combustion is thought to have started the blaze.

Edwin Ott of Lockport, a former well-known Homer resident, is a surgical patient in St. Luke's hospital, Chicago.

The house on the Harvey Ingersoll property which is being remodeled, will soon be ready for occupancy.

Mr. and Mrs. J. L. Murphy were recent Chicago visitors, going to see the Hallowe'en display put on by the Olsen Rug Co. Mrs. Murphy also attended a Stanley Brush party that evening.

Mrs. Kathryn Koenig of Chicago was a weekend visitor in the James Murphy home.

Legion Notes Frankfort, Ill.

Bobzin-Swinford Post 1098

The next regular meeting of the Bobzin-Swinford Post 1098 of the American Legion of Frankfort will be held Monday evening, November 11 in the Frankfort village hall starting at 8 p.m.

Attending the last regular meeting of the Will County Council of the American Legion from Frankfort Post, were Commander Russell Carroll and Adjutant Kenneth L. Oetter.

The following letter was recently received from the Illinois Veterans Commission located at 12 W. Webster St. in Joliet.

"Fear of rejection because of war incurred disabilities is keeping many veterans from reinstating their National Service Life Insurance, the Illinois Veteran's commission revealed today.

Disabilities of this nature will not be considered against those veterans who make application for reinstatement by Dec. 31, 1949.

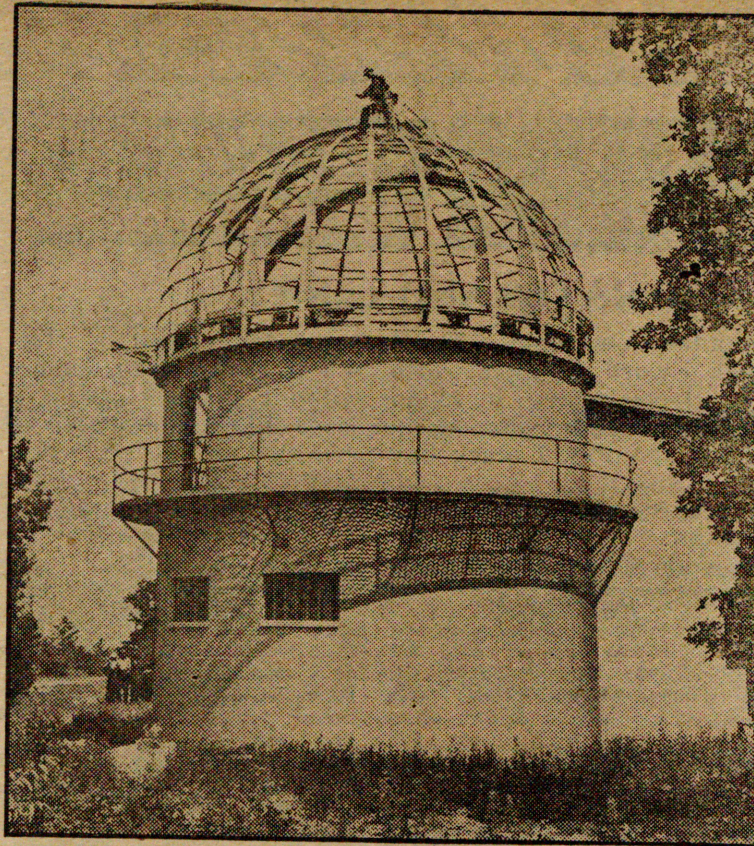

While every veteran who makes application must pass a physical examination satisfactorily, those disabilities attributable to war service are being waived under a special regulation for a limited time.

In applying for reinstatement a veteran must merely pay two months' premiums. The time and place of a physical examination will be determined later. Veterans have the choice of any one of seven insurance plans along with selection of insurance in any amount from \$1,000 to \$10,000 in multiples of \$500.

Those desiring to make application should see their Illinois Veterans commission Service officer immediately."
